End Date: 11-Jun-2026

Runway Re-Designation at Shannon Airport (EINN) Due to Magnetic Variation

This AIC replaces AIC Nr 003/2026

1. **Introduction:**

Due to the gradual shift in earth's magnetic field, the magnetic variation at Shannon Airport (EINN) has changed sufficiently to require a runway re-designation. This change ensures continued alignment between runway magnetic headings and their numerical identifiers.

Details of Change:

Effective 11th June 2026:

EINN runway designation will change to **RWY 05/23**:

Current Designation	New Designation	Magnetic Bearing
Runway 06/24	Runway 05/23	054° / 234°

All associated aerodrome signage and markings will be updated accordingly. The change will be reflected in the Aeronautical Information Publication (AIP) Ireland, EINN AD 2 Section.

2. **Impacted Documentation:**

The following publications and systems will be updated:

- AIP Ireland (EINN AD 2 Section)
- Instrument Approach Charts and Procedures
- ATS and MET Broadcasts
- Flight Planning and Navigation Databases
- NOTAM
- Aerodrome Charts

3. **Action Required:**

Aircraft operators, flight crews and aeronautical data users are advised to:

- Update navigation databases and flight planning systems

- Brief crews on the new runway designation

4. **Contact:**

Post: Shannon Airport Authority (DAC),
Shannon Airport,
Co. Clare.
